Michael S. Brown, University of Texas Southwestern Medical Center
Ardeshir (Adi) Ratan Bulsara, Naval Information Warfare Center
Jason Burdick, University of Pennsylvania
Lewis C. Cantley, Cornell University
Michael L. Chabinc, University of California, Santa Barbara
Bryce Chackerian, The University of New Mexico
Paul Citron, University of California, San Diego
John Cooke, Houston Methodist Research Institute
Jerome Cox, Washington University in St. Louis
Seamus Curran, University of Houston
Pamela B. Davis, Case Western Reserve University
Cristina E. Davis, University of California, Davis
Peter B. Dervan, California Institute of Technology
Tejal A. Desai, University of California, San Francisco
Christos Dimitrakopoulos, University of Massachusetts Amherst
Jon P. Dobson, University of Florida
Francis Joseph Doyle, III, Harvard University
Dongsheng Duan, University of Missouri-Columbia
Dean B. Edwards, University of Idaho
Ayman Sabry El-Baz, University of Louisiana
John F. Engelhardt, University of Iowa
Laura Ensign, Johns Hopkins University
William J. Federspiel, University of Pittsburgh
Terri Fiez, University of Colorado Boulder
Francis Stuart Foster, University of Toronto
Kaizhong Gao, Argonne National Laboratory
Adolfo Garcia-Sastre, Mount Sinai Health System
Glenn R. Gaudette, Worcester Polytechnic Institute
Robert J. Genco, University at Buffalo, The State University of New York
Georgios Giannakis, University of Minnesota
John Murray Gibson, Florida A&M University
Joseph L. Goldstein, University of Texas Southwestern Medical Center
Kenneth E. Goodson, Stanford University
Renukaradhya J. Gourapura, The Ohio State University
David Grewell, North Dakota State University
David Grier, New York University
Robert E. Guldberg, University of Oregon
Bernard Franklin Gupton, Virginia Commonwealth University
Horst Hahn, University of California, Irvine
Yousef Haik, Hamad Bin Khalifa University
Robert P. Hammer, Louisiana State University
Luis Rafael Herrera-Estrella, Texas Tech University
Bertrand Hochwald, University of Notre Dame
Robert S. Hodges, University of Colorado Anschutz
Jeffrey O. Hollinger, Carnegie Mellon University
Victor J. Hruby, The University of Arizona
Hong Hua, The University of Arizona
Jessica E. Huber, Purdue University
J. David Irwin, Auburn University
Bor Zeng B. Jang, National Cheng Kung University
Jules Janick, Purdue University
Wilfred A. Jefferies, The University of British Columbia
Jerome B. Johnson, University of Alaska Fairbanks
Wayne Jones, University of New Hampshire
Eric R. Kandel, Columbia University
Kristi Kiick, University of Delaware
Israel Kleinberg, Stony Brook University
Leonard Kleinrock, University of California, Los Angeles
Melissa Knothe Tate, University of New South Wales
Julia A. Kornfield, California Institute of Technology
David M. Kranz, University of Illinois at Urbana-Champaign
Jack H. Ladenson, Washington University in St. Louis
Gianluca Lazzi, University of Southern California
Walter S. Leal, University of California, Davis
Fred J. Leonberger, University of South Florida
Danuta Leszczynsk, Jackson State University
Yiannis A. Levendis, Northeastern University
Jonathan S. Lewin, Emory University
Jun Li, Kansas State University
David A. Lightfoot, Southern Illinois University
Jingyu Lin, Texas Tech University
Yuehe Lin, Washington State University
Fu-Tong Liu, Academia Sinica
Li-Huei Tsai, Massachusetts Institute of Technology
Kunlei Liu, University of Kentucky
Ray Liu, University of Maryland
Karen Lozano, The University of Texas Rio Grande Valley
G.Q. Max Lu, University of Surrey
Anita Mahadevan-Jansen, Vanderbilt University
Radenka Maric, University of Connecticut
Olimpia Meucci, Drexel University
Sanjit K. Mitra, University of California, Santa Barbara
John P. Mugler, III, University of Virginia
Priyabrata Mukherjee, University of Oklahoma
Satish Nagarajaiah, Rice University
Madhavan Nair, Florida International University
Balaji Narasimhan, Iowa State University
Kathryn Nightingale, Duke University
Valentine Asongu Nzengung, University of Georgia
Fiorenzo Omenetto, Tufts University
Boon Ooi, King Abdullah University of Science and Technology
Ebru Oral, Harvard University
Mihri Ozkan, University of California, Riverside
Peter Palese, Mount Sinai Health System
Keith D Paulsen, Dartmouth College
David S. Peabody, The University of New Mexico
Carlos Pignataro, North Carolina State University
Albert P. Pisano, University of California, San Diego
Leslie S. Prichep, New York University
Yihong Qi, Missouri University of Science and Technology
Roderic Quirk, The University of Akron
John Michael Ramsey, The University of North Carolina at Chapel Hill
Aragula Gururaj Rao, Iowa State University
Mehdi Razavi, Texas Heart Institute
Floyd E. Romesberg, The Scripps Research Institute
Mendel Rosenblum, Stanford University
Rob A. Rutenbar, University of Pittsburgh
Daniela Salvemini, Saint Louis University
Kamal Sarabandi, University of Michigan
Roger R. Schmidt, Syracuse University
Holger Schmidt, University of California, Santa Cruz
Christopher A. Schuh, Massachusetts Institute of Technology
Steve Schwendeman, Michigan State University
Thomas A. Sellers, H. Lee Moffitt Cancer Center & Research Institute
Timothy John Senden, Australian National University
Surendra P. Shah, The University of Texas at Arlington
Mubarak Shah, University of Central Florida
Neil G. Siegel, University of Southern California
John C. H. Spence, Arizona State University
Peter J. Stang, The University of Utah
James Fraser Stoddart, Northwestern University
Howard A. Stone, Princeton University
James C. Sturm, Princeton University
Kenneth Ray Swartzel, North Carolina State University
Francis C. Szoka, University of California, San Francisco
Lakshman Tamil, The University of Texas at Dallas
Gabor Temes, Oregon State University
H. Thomas Temple, Nova Southeastern University
Gregory J. Thompson, West Virginia University
Natalia A. Trayanova, Johns Hopkins University
Hai T. Trieu, The University of Memphis
Liang Liu, Macau University of Science and Technology
Aykut Uren, Georgetown University
Carl-Wilhelm Vogel, University of Hawaii Cancer Center
Lawrence Wald, Massachusetts General Hospital Research Institute
Ge Wang, Rensselaer Polytechnic Institute
Hongjun Wang, Stevens Institute of Technology
Chao-Yang Wang, The Pennsylvania State University
Eric Dean Wetzel, U.S. Army Research Laboratory
Margaret Wheatley, Drexel University
Ryan Wicker, The University of Texas at El Paso
Samuel A. Wickline, University of South Florida
Robert Williams, III, The University of Texas at Austin
Blake S. Wilson, Duke University
Stanislaus S. Wong, Stony Brook University
Chee Wei Wong, University of California, Los Angeles
Karen L. Wooley, Texas A&M University
Min Wu, University of Maryland
Jenny Jie Yang, Georgia State University
Cathy Yao, Baylor College of Medicine
Samuel Yen-Liang Yin, National Taiwan University
